

MARDA LOOP BIA

REPORT TO COMMUNITY 2024

THIS PRINTING HAS MINOR UPDATES AS OF APRIL 2025

Year in Review

In 2024, the Marda Loop BIA has grown from 174 to 196 members and this number continues to rise as more businesses join our vibrant district. We're excited to see popular restaurants and well-known brands choose Marda Loop as their home, adding to the area's dynamic and diverse offerings, but, we were also very sad to see business leave the area as well and are sympathetic to the ongoing construction challenges.

2024 had some very serious concerns related to construction and perceptions of the area. The MLBIA board and our entire team worked very hard to address these challenges.

We had a strong program of events to bring people into Marda Loop, including our signature Marda Gras Street Festival. Eggfest and Spook The Loop had unprecedented participation and attendance. The Marda Loop Night Markets also brought thousands of people into the area and amplified a positive Marda Loop message. And Santa is on the way for Spirit of the Loop on December 7, while we have a brand new shop local event that just launched on November 23rd.

Robust marketing efforts attempted to keep people visiting Marda Loop. We executed a six-month media partnership with CTV, which included a television advertisement and a "live on location" morning with the CTV Morning News at four businesses. This was in addition to summer advertisements in Avenue Magazine, maildrops to local neighbourhoods, a Love the Loop rewards program and more. It was busy in the news! We had a proactive and reactive media relations strategy that resulted in more than 35 pieces of media coverage. Our monthly community newsletter list grew to 1,300 members, and our social media profiles grew substantially in both quality and quantity, giving us a stronger base to market the area and promote events. We also worked hard to feature as many businesses as we could, both proactively and by request, to support those needing extra eyes.

We have worked with the City of Calgary to try to ensure timely and thoughtful Main Streets updates were communicated to both our businesses and the community. A big part of what the BIA does relates to maintaining the streetscape. A lot of our regular programs like planter and banners have been on hold during construction, but in the spring we engaged the RadiCare Ventures team to do litter clean up and graffiti removal. We have put up Christmas lights on our larger trees and by next year we will have many more opportunities. In 2025 more resources will go pivoted to the streetscape, with new planters, banners, historic signage and other initiatives.

On the social media front, we published 1,500+ posts focused on our businesses, construction updates, event promotions, and feel-good stories about the Loop. To date, our Reels and video content featuring our businesses have garnered over 370,000 views. Each month, we worked with an average of 6-10 individual businesses to share positive stories about our vibrant district. Our social media engagement rate consistently exceeds BIA averages, and we've reached more than half a million Calgarians with our content. Read on for more detailed insights into all of the solutions we've implemented to support and elevate our community.

Streetscaping & Clean-up

In the spring we engaged RadiCare Ventures to help clean up litter and graffiti. RadiCare specializes in urban clean-up and is a social enterprise that employs people who have come through adversity. Since April they have collected 29 bags of garbage, over 2,300 cigarette butts and cleaned 98 posters/stickers and 101 pieces of graffiti.

MAIN STREETS

Streetscape 2025

As 2024 comes to an end we are starting to see the new Main Street streetscape come together where it has been mostly completed, including wider sidewalks, corner bulbs at pedestrian crossings, the decorative paving of the "Loop in the Loop" area, and new trees. Marda Loop branded sidewalk stamps, tree grates and bike racks have been installed, and new benches and garbage cans. The area is much brighter with better street lighting.

We will see similar improvements in the remainder of the BIA in 2025

What's else is coming?

2025 will bring the return of the Crowchild entryway sign and four other entryway markers (they are from the 1980s and are being refurbished), and new directional "wayfinding" signage, similar to what you see in downtown.

BIA projects for 2025:

- New street banners to be mounted in the spring (the old banners served us for over 6 years). The City is paying for most of the cost except for the artwork.
- The City is providing us with new planters. We plan to make them bloom by mid-summer 2025.
- Heritage signage to tell some of the stories from Marda Loop's past.
- Seasonal lighting on our new lamp-posts, and on our new trees.
- Looking at opportunities for murals, and art-wraps for electrical boxes. There's opportunity for City funding support.
- Continuation of litter and graffiti control program.

Grants and Sponsorship

City of Calgary grants:

Community Standards Fund Grant (for cleaning): \$7,500
Festival and Events Innovation Microgrant for Marda Gras enhancement: \$7,135
Construction Support Grant for BIA promotions - \$20,000. Was in 2023 but some benefit flowed to 2024.

- CTV partnership which saw more than 300,000+ eyes on the Loop across Bell Media channels and outlets.
- More than 35 stories in the news on major channels such as Global, CBC, City News and CTV.

MARDA LOOP HISTORY PROJECT

Celebrating the 40th year of Marda Loop and Marda Gras!

This is the 40th anniversary of the Marda Loop BIA. We have been working with Heritage Calgary, local historian Harry Sanders, and the Marda Loop Communities Association Senior's Group on researching the history of Marda Loop. 1985 will bring a rich document, talks and tours, and historic signage. There will be lots of interesting content for newsletters, online posts, social media and more. The project has so far reached many in the community, and we can't wait to unveil the finished products. With the support of MLCA, Main Streets and a grant from the Province.
